Table 1: Number of genes on each chromosome among the 500 genes with the lowest p-values for the correlation of their expression with *COMT* expression.

| Chromosome | Prefrontal | Cerebellum | Temporal | Pons |
|------------|------------|------------|----------|------|
| 1          | 56         | 63         | 63       | 58   |
| 2          | 41         | 33         | 36       | 33   |
| 3          | 32         | 32         | 35       | 29   |
| 4          | 12         | 17         | 19       | 19   |
| 5          | 34         | 24         | 31       | 21   |
| 6          | 39         | 27         | 27       | 31   |
| 7          | 17         | 21         | 20       | 22   |
| 8          | 20         | 18         | 19       | 19   |
| 9          | 17         | 18         | 26       | 26   |
| 10         | 13         | 23         | 23       | 19   |
| 11         | 23         | 26         | 21       | 32   |
| 12         | 25         | 31         | 21       | 20   |
| 13         | 12         | 5          | 13       | 9    |
| 14         | 10         | 17         | 16       | 22   |
| 15         | 18         | 17         | 17       | 13   |
| 16         | 13         | 19         | 13       | 17   |
| 17         | 31         | 28         | 27       | 29   |
| 18         | 11         | 10         | 8        | 11   |
| 19         | 24         | 18         | 22       | 18   |
| 20         | 11         | 13         | 10       | 17   |
| 21         | 11         | 12         | 9        | 7    |
| 22         | 12         | 9          | 9        | 13   |
| X          | 18         | 17         | 15       | 15   |
| Y          | 0          | 0          | 0        | 0    |
